   It is normally expected that a final examination be given in each course that is taught. Recognizing that there are courses where a final exam, per se, may be less appropriate, an alternative final assessment may be used. Faculty should provide an explanation of their assessment in course syllabi. Regardless of the type of mechanism employed, it is the expectation that each faculty member will meet his/her class for the scheduled number of sessions, as published in the University Calendar and semester schedule, including the final examination period.
