BOG/BOT Update - Dr. Chopra reporting (Dr. Chase is on research travel in Belize)

BOG original tuition approach was to raise tuition by 13% over five years which would have put the State of Florida at the top of the bottom quartile in the US. A version of Governor Crist's budget is anticipated today.

Resolution 2007-2008-5 Appointment and Evaluation of School Directors and Department Chairs - Resolution from Personnel Committee (Dr. Chakrabarti reporting)
Whereas, the University of Central Florida needs to create new or restructure existing schools/departments to sustain growth, productivity and excellence in education and research,

Be it resolved, that the Faculty Senate endorses the following guidelines for appointment and evaluation of school directors and department chairs.

All schools/departments must have an appointed director/chair.

A school/department's director/chair serves a term of five years although the appointment is renewable annually. Normally, a director/chair will not serve more than two successive five-year terms.

Each college dean, upon consultation with that college's faculty, will establish a procedure for the appointment and reappointment of directors/chairs. Except in rare occasions, college deans should not serve as directors/chairs. Departmental faculty and others the dean deems appropriate will conduct the review. Eligible voters include all tenured and tenure-track faculty, but eligibility may be extended at the college level by vote of the tenured and tenure-track faculty. College procedures require a record of the vote for appointment and reappointment.

The faculty of the school/department will evaluate directors/chairs annually. A full review for reappointment will take place during the fifth year. The dean at his or her own initiative or as a consequence of a request can institute an interim review by the department faculty of the director/chair under college procedures. After due consideration, the dean will nominate a candidate for director/chair, whose appointment is subject to approval by the provost and the president.

When restructuring of on-campus units occurs, there should be an outline of the process. The committee reviewed the faculty handbook and modified the language for this resolution. There was extensive discussion by senators raising questions regarding specific wording in the resolution. Dr. Chakrabarti commented that in part, the committee did not intend to include wording that could be viewed as micromanagement of the review process at each unit level. There was discussion of reworking the flow of the document particularly in paragraphs five and six. Further to delineate the appointment section of and the review section in the resolution. Senators with suggestions were asked to forward comments to Dr. Chakrabarti for review at the next committee meeting.

Dr. Chopra suggested this resolution be returned back to the Personnel Committee with provisos. Motion made, seconded and passed. Resolution 2007-2008-5 was sent back to Personnel Committee.
