

**Resolution 2012-2013-11 Teaching Incentive Program SCH Eligibility**  
(from the Personnel Committee)

**Whereas**, the Teaching Incentive Program (TIP) is an important recognition of an individual's substantial commitment to excellence in teaching, in classes of all sizes and taught by all modes; and

**Whereas**, the TIP program was originally implemented with student credit hour restrictions which have excluded faculty who have assignments with lower than the median student credit hours, yet who have a substantial commitment to excellence in teaching; therefore

**Be It Resolved** that the TIP eligibility criteria will simply require a "substantial commitment to excellence in teaching," by regular full time faculty as determined by appropriate units, and will no longer restrict eligibility based on student credit hour production.
