

**Resolution 2012-2013-14 Incentive for Students' Completion of the Student Perception of Instruction**

(from the Personnel Committee)

**Whereas**, the response rate for the Student Perception of Instruction (SPoI) varies greatly; and

**Whereas**, the response rate of SPoI is critically low in some courses including low enrollment graduate level courses and other limited access courses; and

**Whereas**, the use of the SPoI is crucial to the overall evaluation of faculty; and

**Whereas**, the data for SPoI is necessary to assist instructors in improving the quality and delivery of instructions; and

**Whereas**, an incentive for students can improve SPoI response rates; therefore

**Be It Resolved** that an incentive be created for students who complete an SPoI.
