

Resolution 2006-2007-3 Electronic Thesis and Dissertations Dissemination Policy

Whereas, the university is dedicated to open access of original work for the purposes of scholarship, and

Whereas, the university is mindful of protecting the rights of our students with regard to their original work,

Whereas, students are required to submit the thesis or dissertation electronically,

Be it resolved, UCF will provide the following options for all graduate students where the university and/or the student has no declared interest in pursuing a patent as determined by the Office of Research and Commercialization:

1. immediate worldwide dissemination with no restrictions
2. dissemination with limited access to the UCF community (its library patrons, including interlibrary sharing and release to ProQuest) for a period of one or three years and the declaration of this occurs during the final submission. Once the initial request is granted, additional extensions of one year can be obtained by notification to the Office of Graduate Studies using the Request to Extend Electronic Thesis and Dissertation Access Limitations form. It is the responsibility of the student to request any such extension; otherwise, the document will automatically be released for electronic dissemination.
3. hold the thesis or dissertation for up to six months to pursue a patent.
