- Resolution 88-89-13? Quality Copy Services in Library
[Jointly submitted by the Instruction and Budget Committees]

To provide quality copying services within the Library for students, staff, and faculty, the Faculty Senate recommends that the Library clearly define the required level of service and needed equipment, obtain bids from available suppliers, and negotiate a contract for meeting the copying requirements.

- Resolution 88-89-14? Proposed Annual Faculty Evaluation Appeals Procedure
[Submitted by the Personnel Committee]

Be it resolved that a faculty member who wishes to contest the chairperson's evaluation must formally notify the chairperson within two weeks of receipt of that evaluation. If the chairperson and faculty member cannot resolve their differences, the faculty member's evaluation folder shall be reviewed by an elected departmental faculty committee which shall issue a written recommendation regarding the evaluation and send copies to the chairperson and faculty member within a two week period. If either wishes to contest the committee's recommendation, the issue shall be referred to the college Dean for resolution. All parties shall be notified in writing of the Dean's decision within ten days.
