- Chair Tamasan began the meeting at 9:05 by providing an overview and the status of the parking decal/hang tag cost equalization discussions.
  - Chair Tamasan led discussion on the committee's next direction.
  - A motion by Chair Tamasan to continue pursuing price equalization passed.
  - Corey Watkins will request that Parking Services provide data for proposed price changes, to be used as part of a survey—designed by Amit Joshi—to be taken by faculty, staff and students. This survey will gauge interest in the equalization of decal/hangtag pricing.
  - The next meeting will take place on March 21, 2013 at 9:00 in HPA 247, at which time the committee will reach a final decision on this matter. We will base our decision on past and current discussions, Parking Services data, survey results, and any other pertinent information, so that any potential resolution presented to the Faculty Senate Steering Committee will be an informed one.
