### AGENDA ITEMS – New Business

II-A: Data for on-call shuttle stop at Partnership II Building -- With an average of only six boardings per day, the data does not support a dedicated shuttle stop in this location. It was determined that the stop at Partnership II will remain as an on-call stop for the remainder of the spring semester; however, we will continue to monitor the ridership.

II-B: Update on Park 'n ride Shuttles – The Park 'n ride shuttles have been very successful so far this semester. They are very well used and the shuttles are running on a continuous basis.

### AGENDA ITEMS – Old Business

#### III-A: Requests for Reserved Spaces:

1. Mary Dillon, COHPA School of Social Work

There was a motion and second to deny this request. The vote to deny was unanimous.

2. Bonnie Yegidis – COHPA School of Social Work

There was a motion and second to deny this request. The vote to deny was unanimous.

3. Jennifer Kent-Walsh – FFAST Center Director

There was a motion and second to grant this request which was unanimously approved.

#### III-B: Expectant Mother parking spaces review

We are beginning the spring semester with 4 spaces.

Discussions: Kris Singh informed the Committee that we will be installing cameras in parking garage B. Garage B will be the first of all the garages to be outfitted with cameras. Additionally, we will be installing License Plate Recognition (LPR) in conjunction with the UCF Police Department.

Terry Wheeler brought up a concern with the misuse/abuse of the vendor permits that are purchased by some campus departments. There is a particular department that seems to be a major abuser. We will address the vendor permits with updates to the parking regulations.

---

There was discussion to prohibit overnight parking on the first level of all of the unreserved garages. The general consensus is that we should not restrict overnight parking except in those garages that are already affected with no overnight parking.

The meeting adjourned at 2:15 p.m.
