

## University Parking Committee

Minutes of Meeting – 01/21/14

Present: Amit Joshi, Earl Weaver, Ven Basco, Ricardo Zaurin, Amy Reckdenwald, David Harris, Curt Sawyer; Invited Guest: Major David Zambri, UCF Police Department

1. Minutes from the previous meeting were approved (Ven Basco proposed, Earl Weaver second).
2. Discussion on W. Plaza Drive Regulation, with input from Major Zambri
  - a. Original recommendation was for 2 left turn lanes onto McCulloch Blvd, instead of the current median.
  - b. Closing the roadway either permanently or during peak hours not feasible due to it impacting overall traffic flow and because of lack of manpower, respectively.
  - c. Installation of traffic light not feasible either, since intersection is too close to UCF Fire Station and McCulloch Blvd light.
  - d. Possibility of study by Engineering Department into regulation of traffic flow. Prof Haitham Al-Deek may direct study.
3. Discussion on regulation of self-propelled devices on campus
  - a. Per established statutes, regulation of traffic for non-roadways (sidewalks, etc.) does not fall under the purview of the police department.
  - b. Need to establish scope of problem – possible data on actual injuries / accidents caused by such devices.
  - c. Can benchmark with other universities
  - d. Possibility of running a safety campaign to educate riders. Could be coordinated with SDS officers.
4. Hangtag / Decal Equalization
  - a. Curt Sawyer noted informed the committee of the fee committee decision not to increase student access fees for fiscal year 2015
  - b. Admin has decided to freeze hangtag and decal prices for the same year.
  - c. In principle, admin is committed to the concept of equalization, without providing any timeline for its implementation.
  - d. Committee decided to postpone passing a formal resolution on equalization until the next meeting
