

# Faculty Senate

## Information Technology Committee

Minutes of meeting of Tuesday, January 24, 2023, 2:00 p.m.

Location: Zoom

Present: Glenn Martin (chair), Joseph Harrington (vice chair, minutes), Matt Hall, Amy Sugar, Athena Hoepfner, Avery Lane, Bert Scott, Chad Macuszonok, Francisca Yonekura, Mehmet Altin, Harry Paarsch, Lee Dotson, Pieter Kik, Shengli Zou, Viatcheslav Kokoouline

- Call to order at 2:05 pm
- Approval of the Minutes for January 10, 2023
  - Minutes approved without change
- Old Business
  - Update on policy feedback system. Joe Harrington met with Scott Baron to discuss.
  - Linux support. New hire starts remotely on February 17, 2023 and will come to an IT Committee meeting in March. Joe Harrington met with Junior Ramsey about a script to help with OWL updates; Chad and Matt suggested putting up an UpWork project.
  - CUI experiences. Glenn Martin discussed some of his experiences working under KnightShield (UCF's approach to handling controlled unclassified information). This includes 2FA for logins and screen unlocks. UCF treats everything done on a project with DFARS clause as CUI, which is safe although may overclassify some things as CUI. In addition, since a faculty's efforts are diverse, it can cause some inefficiencies (e.g. Glenn keeps two PCs in his office now).
- New Business
  - Matt Hall (CIO) discussed the potential change of student systems from PeopleSoft (which sunsets in 2034) to Workday, Quali, or others. Such projects are typically 5 years and \$50-70M. Matt wants to do a thoughtful approach and not a rush job like Knight Vision. Can we do a rollout where the initial improvements outweigh the initial pain points for most of the faculty?
- Meeting adjourned 2:45 pm
