-
- Chair Tamasan welcomed committee members.
 - Amit Joshi provided background on the survey he created to be circulated in our departments for feedback. So far, support for parking decal/hangtag equalization has been expressed.
 - The next step is to administer the survey. Ven Basco will generate and send the announcement for campus-wide distribution March 25-29, 2013, titled "Three-Question Survey on UCF Parking Cost". The rationale preceding the questions will read: "This three-question survey is intended to gauge interest in preferences for purchasing the parking decal vs. hangtag."
 - A motion was made and carried to charge the next parking committee of the faculty senate to view the survey data and, pending discussion, submit a new resolution.
 - Chair Tamasan thanked the committee members for their service this year.
